PANTONE 1

PANTONE 2

Please, read cautiously before you approve or sign this proof.

ATTENTION!!! Signing this proof is NOT a formality. The proof may contain errors. Please, check carefully all colors, sizes, logos, print position and text. If all details are correct, please sign or approve in return.
Due to different screen and paper methods of color reproduction, finished bags colors may alter slightly from the proof.
PLEASE NOTE: Once you have approved or signed and returned this proof you are responsible for any errors and costs incurred to correct those errors.
WARNING:
Avoid complex designs requiring exact alignment in the gussets near gluing edges.
Please note that each side gusset is split between the left and right side panels.
There is 1–2 mm folding tolerance during high speed machine production.
These lines indicate bag cutter or folding. They will not be printed.
PLEASE NOTE!
This proof is not for color matching. Check color references using a latest edition of Pantone Solid coated or uncoated or Pantone process coated or uncoated CMYK books. Many colors look different on coated glossy and uncoated matt papers and we will not accept any claims in case colors are printed correctly for the respective paper.
